

MOTION LIGHT TWILIGHT

RED LIGHT

MOTION LIGHT TWILIGHT FOR HEALTHY SLEEP

SPV LED
RED LIGHT

100% BLUE
AND GREEN
LIGHT FREE

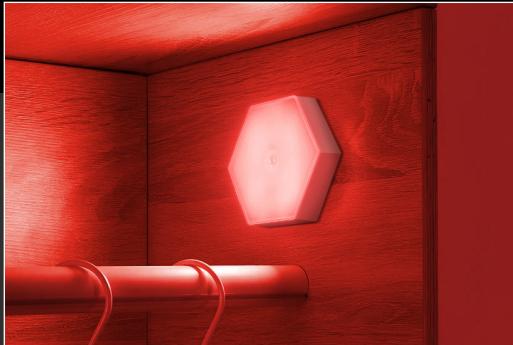

MELATONIN
RELEASE

RESTFUL
SLEEP

The **MOTION LIGHT TWILIGHT** is the perfect night light that emits no sleep disrupting blue or green light and provides a gentle red light to guide you at night.

The Motion Light Twilight is 100% blue and green light free, has zero flicker, and is low EMF.

The **MOTION LIGHT TWILIGHT** has a three position switch. In the "ON" position, it continuously emits a gentle pure red light. In the "OFF" position, the unit is off. And in the "AUTO" position, the motion sensor will turn on the light in darkness when one passes within 4m of the light and within a 120 degree area.

Stick it on, hang it up, stand it up, set it down

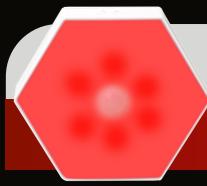

The **MOTION LIGHT TWILIGHT** comes with a 3M magnetic attached back to stick to the wall, and a hanging attachment to hang on the wall, or it can be simply placed down on the floor.

This is the ideal motion night light for your children's rooms, bathrooms, hallways, baby's nurseries, or simply anywhere you may need to walk to during the night.
